

The PWM Green Matrix

There is a growing recognition that both institutional and private investors are reshaping their behaviours to address the environmental and social challenges we face today.

At Partners Wealth Management, we've been leading the sustainable conversation with investors, supporting you as you shape your views and navigate the opportunities and risks in green investing.

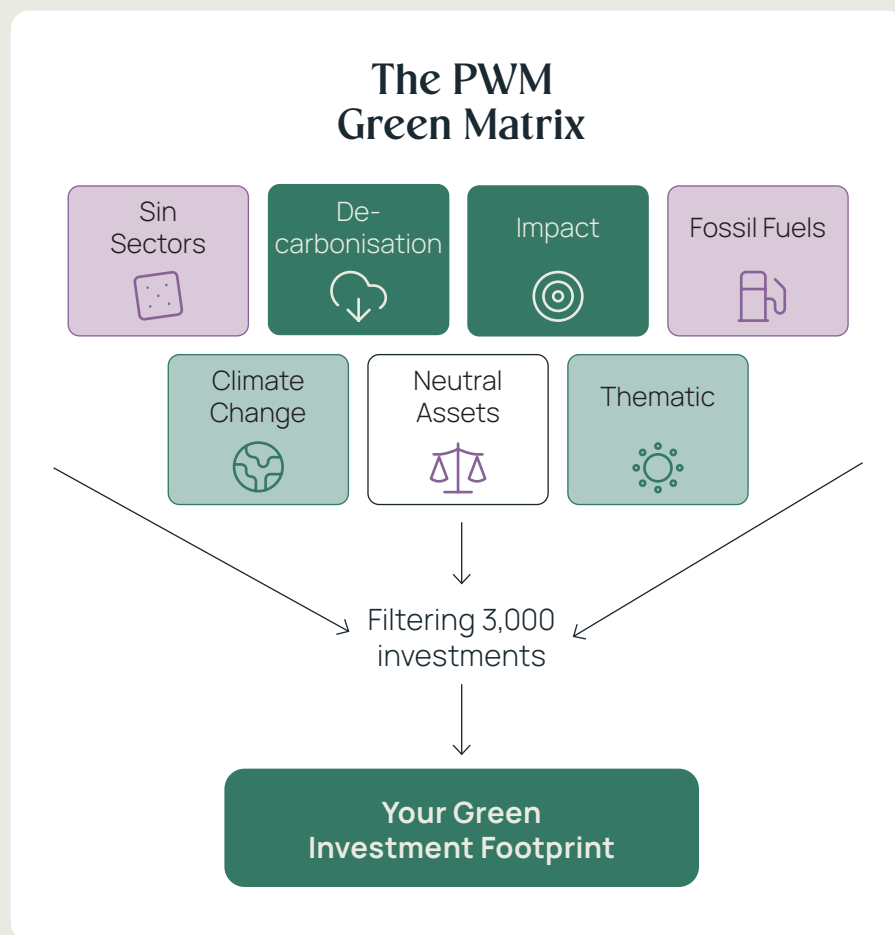

A partnership for meaningful investment

In partnership with research group ARC Research, we carry out extensive analysis of the leading managers and funds in the green arena. This helps us highlight the managers with real conviction in sustainable investing, while weeding out those who don't measure up.

Creating your green investment footprint

We bring clarity to a crowded space by cutting through the many options available and applying our independent sustainable methodology – the PWM Green Matrix. Working together, we blend your personal preferences with the most suitable sustainable investments, creating your bespoke green investment footprint.

The PWM Green Matrix helps you invest confidently for a more sustainable future – as well as a secure retirement.

Investing in companies that are sustainable, can sustain your retirement”.

How can we help?

If you'd like to discuss investing for a more sustainable future as well as your retirement, please contact your Partners Wealth Management adviser or call **020 7444 4030**.
